

OLD WORLD FLAGSTONE PRICES

IMPORTANT INFORMATION: READ THIS FIRST

- The "Price Per U/M" column is per the unit of measure shown in the "U/M" column. Some items are discounted when purchased in full pallet increments.
- Since products are naturally created, variations in color and texture should be expected, and color and texture of products may vary from samples and displays.
- Due to their natural mineral content, natural stone products may exhibit spots, discoloration, and oxidation as a result of weathering and environmental conditions.
- All weights are approximated based on averages, and variances should be expected. Weights are shown in pounds.
- Tennessee Tan pieces can be custom cut, but because they are more brittle than the other colors, they cannot be rockfaced.

Artisan Series

Products in our Artisan Series feature natural cleft tops, hand-cut rockfaced edges, and calibrated bottoms. The calibrated bottom reduces installation time and cost while maintaining a natural appearance.
